

Preparing for a Skype Call with Meadow Kidney Care

1. Download the Skype software from <https://www.skype.com/en/get-skype>
2. Skype is available for Windows, iOS, Android, Windows Mobile, Mac, and Linux
3. Login with your email or phone number - you will need to provide the associated email account to the office so that the physician with contact you.
4. Your Skype call is at a scheduled time – please be available 10 minutes prior to your call time. The physician will attempt to call you near your appointment time – like an in person visit, the physician may be running late.
5. Skype should not be used to contact Meadow Kidney Care outside of your scheduled call time – it is not monitored on a regular basis. The office can always be reached at 301-797-9600 – this number is answered 24/7 and a physician can be reached in case of emergency.
